

RANCO® HI-LIMIT THERMOSTAT

Ranco® electronic and electromechanical controls are leading products for the HVACR and Appliances markets.

The L Series is a family of fixed setting temperature limit controls whose design is failsafe. The operating temperatures are factory set and non-adjustable by the customer.

Specification

Contact	: SPST (Break on Temperature Rise)
Switching Capacity	: 16A 400V (Resistive) 3A 400V (Inductive)
Terminal	: 6.35mm Quick Connector
Differential Temp	: $\pm 8K$
UL Listed	: E60538

Part No.	Range	Type	Capillary Length
L07P1036000	90°C	Auto Reset	1000mm
LM7P6599000	125°C	Manual Reset	650mm
